JEFFERSON COUNTY DRAINAGE DISTRICT NO. 6

APPLICATION AND AGREEMENT FOR PIPELINE/UTILITY PERMIT

New Line

 Maintenance/Repairs

 Amendment To Existing Permit

_____ (Name of Applicant) does hereby make application to Jefferson County Drainage District No. 6 (the District) to construct, maintain, and repair pipeline/utility crossing(s) across properties, easements, ditches, streams or other such drainage way(s) as described below.

Information required:

1. Name and Address of Applicant _____

2. Name and Address of Company or Agency Owning Line or Facility (if same as Applicant, please indicate): _____

3. Name and Address of Operator (if same as Applicant, please indicate):

4. Name and Address of Contractor to Install Line or Facility:

5. Estimated Date of Installation: _____
6. Location of Line(s) (Tract No. Survey, Abstract No.): _____

7. Jefferson County Drainage District No. 6's Easement(s) Ditch(es), Stream(s), or Other Drainage way(s) to be Crossed: _____

8. Names and Addresses of Owners of Tracts Involved and Copy of Pipeline/Utility Easement(s) Acquired: _____

9. Number and Size of Line(s): _____
10. Pressure (Each Line): _____
11. Content (Each Line): _____
12. Is this a Common Carrier Pipeline/Utility? If yes, please submit Applicant's Texas Railroad Commission Form "T-4" or similar Form designating the facility as a common carrier serving a public facility or purpose. _____
13. Does Applicant have the Power of Eminent Domain? _____
14. Will the product be carried for hire or by the owner of the goods?

15. Where is the origin of the line? _____
16. Where is the destination of the line? _____

If requested permit is granted, Applicant, in consideration thereof, **agrees and binds itself as follows:**

1. All pipelines/utilities will be placed at least five feet (60") below the *existing* or *planned* cross section flow line of the ditch. Upon prior written approval of the District Engineer, temporary overhead lines may be installed at a minimum elevation of three feet above the berm of the ditch for a period not to exceed six months in duration.
2. Applicant will furnish location map, profile and plans with application permit. Applicant will also furnish the DD6 District Map showing the proposed route and crossings of drainage ditches.
3. The District will be notified in writing ten days prior to beginning date of construction under this permit.
4. Applicant will bear the entire expense of all future relocations of any pipeline/utility(s) should such relocation at the sole discretion of the Board of Directors of Jefferson County Drainage District No. 6 be necessary for improvement, alteration, or maintenance of the District's facility.
5. Applicant will not do, or cause to be done, anything to impede or obstruct an adequate flow of water through the District's facility during Applicant's operation under this permit.
6. Applicant will notify the District at least 48 hours prior to completion of its work and removal of its equipment from the jobsite to permit the District to make an inspection.
7. Upon notification by the District, the Applicant will promptly repair or rectify any deficiency or condition caused by Applicant's operations or

installations under this permit. Applicant will leave District's drainage facility and/or easement in as near the same condition or better, in the District's judgment, as they existed prior to the commencement of the operations under this permit.

8. **The District shall not be liable or responsible for, and shall be saved and held harmless by Applicant from and against any and all suits, actions, losses, damages, claims, or liability of any character, type, or description, including all expenses of litigation, court costs, attorney's fees, and engineering fees for injury or death to any person, or injury to any property, received or sustained by any person or persons or property, arising out of, or occasioned by, directly or indirectly, the performance of Applicant under this agreement, including claims and damages arising in whole or in part from the negligence of the District.**

It is the expressed intent of the parties to this Agreement that the indemnity provided for in this section is an indemnity extended by Applicant to indemnify and protect the District from the consequences of the District's own negligence, whether that negligence is the sole or contributory cause of the resultant, injury, death, or damage.

Applicant further agrees to defend, at its own expense, and on behalf of the District and in the name of Jefferson County Drainage District No. 6 any claim or litigation brought in connection with any such injury, death, or damage and herein Waives any and all right of subrogation against Jefferson County Drainage District No. 6. and the District's insurance carriers.

Before construction is begun on such pipeline/utility(s) crossing(s), Applicant/Contractor will furnish to the District a certificate of insurance providing the District evidence of acceptable insurance naming the District as Certificate Holder, Additional Insured and Waiver of Subrogation (or other security approved by the District) payable to Jefferson County Drainage District No. 6 and protecting Jefferson County Drainage District No. 6 (as an additional named insured) against any claims for personal injuries or damages to property resulting from the operations of Applicant, its agents, servants, employees, and contractors under this permit. Insurance is to be supplied in accordance with the attached Schedule A.

9. The District makes no warranties, express or implied, in the granting of this permit; nor does the District purport to grant any property interest or exclusive privilege whatsoever by granting such permit. It is specifically understood that the District is not the agent for, nor does it act for, the fee owner(s) or any persons or entities having any right, title, or right to possession of the land upon which the District's easement is located.

10. Applicant binds itself to comply with all federal, state, and local laws or regulations and will obtain all necessary permits from all local and federal agencies required by law before installation or construction is begun.
11. Applicant will install its facilities in a manner and location as shown in the plans and specifications filed with the District in support of this application for permit. The District's engineer or inspector may at any time make such inspection as he may deem necessary to assure that the construction of the line or other facility is in accordance with the plans and specifications submitted and said engineer or inspector shall have the right to temporarily suspend Applicant's work, if necessary, while such inspection is being made. Should Applicant not install the line or other facility in accordance with the terms and conditions of this permit, Applicant agrees that the District shall have the right to require, at the Applicant's expense, the removal of the facility and its replacement in conformance to said plans and specifications and conditions of this permit. The District may revoke this permit and suspend all work hereunder if it is determined by the District that the line or facility is not being installed in accordance with such plans and specifications and conditions of this permit. The suspension or revocation of this permit shall not be a basis for a claim for damages against the District.
12. Except in emergency situations where it is necessary to protect life and property, Applicant will not make any change, modification, or alteration in or to the line or other facility without first securing a new or amended permit from the District prior to the making of any change with notice being given to the District 48 hours in advance. In emergency situations, notice will be given by the Applicant to the District at the earliest time possible. Applicant will keep up and maintain the line or other facility hereby authorized in good and safe condition in accordance with plans, specifications, and this permit.
13. All pipeline/utility crossing locations under this permit shall be identified with appropriate markers installed three feet above ground on metal posts at such points and at such distances from the District's ditch as may be designated by the District's engineer. Applicant will remove and then replace any markers, when so designated by the District's engineer, as necessary to facilitate maintenance or construction on the District's ditch.
14. A Permit Fees and Requirements:
Maintenance/Repairs: The permit fee to cover administrative cost in the amount of **\$500.00**, plus a reimbursement to the District for any necessary engineering fees which may be incurred with the advent of this permit, is hereby charged for routine maintenance and/or repair work performed at any one crossing. Separate permit fees, in the amounts stated above, will be charged for each separate crossing location; however, more than one crossing location may be included in a single application

Ditch Crossings: The permit fee to cover administrative cost in the amount of **\$1,000.00**, plus a reimbursement to the District for any necessary engineering fees which may be incurred with the advent of this permit, is hereby charged for each crossing of a Jefferson County Drainage District No. 6 ditch. This fee will permit a single pipeline/utility to cross at a single crossing location. An additional fee of **\$1,000.00**, will be charged for each additional line included in the same permit application, including additional pipelines/utilities within the same crossing location. Separate permit fees, in the amounts stated above, will be charged for each separate crossing location; however, more than one crossing location may be included in a single application.

Open-Cut Ditch Crossings: Pipeline installation by open-cutting ditch crossings will require a fee of **\$5,000.00** for each open cut. The following requirements must be met and/or approved by the District's inspector:

- a. Contractor will notify Jefferson County Drainage District No. 6 two (2) days (48 hrs.) in advance of construction beginning at each crossing.
- b. Said pipeline will be installed using double ditching, which means that the topsoil will be removed first and placed to one side of the ditch, and then, the subsoil will be removed and placed to the other side of the ditch. Once the pipeline has been laid in the ditch, the subsoil will be returned to the ditch first, followed by the topsoil, which will be returned to the surface of said property. This method of installing the pipeline will help preserve the surface of the property and the integrity of the District's ditch.
- c. The contractor will be required to perform property backfill and compaction procedures.
- d. Upon proper compaction procedures, all disturbed areas must be hydro-mulched with seasonal grass seeds and adequate fertilizing to sustain vegetative growth for a period of two (2) years.
- e. Applicant will be responsible for maintaining the integrity of the District's channel, (which includes maintaining all disturbed areas to the same elevation of adjacent normal ground surfaces); at each crossing for a period of two (2) years from the date of completion of the pipeline installation at each crossing.

Temporary Bridges: The fee to place temporary bridge(s) over a ditch(es) for movement of equipment is **\$2,500.00** for each bridge. The following requirements must be met and/or approved by the District's inspector:

- a. Temporary bridges will be allowed only on ditches that can be crossed with a single open span.
- b. The low chord of the bridge is required to be at or above ground level.
- c. Abutment to abutment length shall be equal or exceed the ditch top plus six (6) feet.
- d. All bridges and abutment supports are to be removed as soon as possible after use.
- e. The applicant/contractor shall notify Jefferson County Drainage District No. 6 twenty-four (24) hours prior to placement of the temporary bridge.

- f. Upon removal of the temporary bridge, all approaches and other disturbed areas must be brought to their original condition. Proper compaction of all disturbed areas is required, and areas must be hydro-mulched with seasonal grass seeds and adequate fertilizing to sustain vegetative growth for a period of two (2) years.
- g. Applicant/Contractor will be responsible for maintaining the integrity of the District's channel, (which includes maintaining all disturbed areas to the same elevation of adjacent normal ground surfaces); at each temporary bridge crossing for a period of two (2) years from the date of completion of the pipeline installation.

Request to lay an additional line or lines, not included in an initial permit application, must be made by separate application with new permit fees paid accordingly and required support data.

All permit fees must be submitted with the application for permit.

Permit fees submitted with this application for which pipeline/utility crossings are not approved by Directors of Drainage District No. 6 will be refunded to Applicant.

- 15. The Applicant is allowed four months (120 days) from the granting of the permit to start construction. Once started, the Applicant is allowed three months to complete all work under such permit. All construction must be completed within seven months from the date of issuance of the permit. Upon application, extension may be granted by the District Engineer or General Manager. Such applications for extension must be received by the District at least thirty days before the expiration of the seven-month period. A new permit fee, in accordance with Paragraph 14 hereof, will be charged for each extension granted.
- 16. Upon completion of the work, Applicant is required to submit a copy of the "As Built" drawing to the District's right-of-way agent.
- 17. Construction on any pipeline/utility crossing will not begin until written approval has been given by Jefferson County Drainage District No. 6.
- 18. All provisions of the Pipeline/Utility Permit Administration Procedure of Jefferson County Drainage District No. 6, and all amendments thereto, are hereby incorporated herein as part of the terms and conditions of this permit for all purposes.

DATED this _____ day of _____, 20_____.
