In 2017, the Texas legislature amended the law to require Form 1295 to include an "unsworn declaration" which includes, among other things, the date of birth and address of the authorized representative signing the form. The unsworn declaration, including the date of birth and address of the signatory, replaces the notary requirement that applied to contracts entered into before January 1, 2018. The TEC filing application does not capture the date of birth or street address of the signatory and it will not appear on forms that are filed using the TEC filing application.

Changes to the law requiring certain businesses to file a Form 1295 are in effect for contracts entered into or amended on or after January 1, 2018. The changes exempt businesses from filing a Form 1295 for certain types of contracts and replace the need for a completed Form 1295 to be notarized. Instead, the person filing a 1295 needs to complete an "unsworn declaration."

FORM 1295 Exemptions: What type of contracts are exempt from the Form 1295 filing requirement under the amended law? The amended law adds to the list of types of contract exempt from the Form 1295 filing requirement. A completed Form 1295 is not required for:

The District is interested in receiving bids from firms or individuals for Wire- Rope Excavator (Dragline) Contract with a 60' Boom and 1-Yard Bucket for performing excavation jobs and duties, on District right-of-ways within the District's boundaries as specified by District representatives. A map of the District's boundaries is available as Appendix A.

Contractor must agree to furnish specified equipment, fully operated, at per-hour rates set forth in their bid. The District will not pay for move-in and move-out time or cost, lunch, and other breaks, breakdown time, or servicing of equipment. All fuel, repairs, lubricants, and other cost of maintaining the equipment will be at the expense of the bidder. The District will not pay any charges beyond the rate-per-hour basis. The District will not pay for show-up time for operators under any circumstances. **All increments in this bid will be awarded to one Contractor.**

2. Requirements

The equipment operated by the Contractor must meet the requirements set forth below:

- 2.1 One or more track-type crawler, 60' minimum boom, wire-rope excavator equipped with a minimum 1 yard digging bucket; minimum operating weight of 60,000 lbs.
- 2.2 Machines must be equipped with adequate weights and counterweights and engine horsepower to supplement the specified boom and digging bucket sizes.
- 2.3 These units must be in very good condition at the time of contract acceptance. Units that are unable to perform because of numerous and lengthy breakdowns are unacceptable for this bid. Equipment will have to meet the satisfaction of the District; therefore, all bidders will submit an equipment profile sheet that states exactly what equipment will be used for this bid (Manufacturer, year, brand, engine horsepower, boom reach specifications and attachment specifications).
- 2.4 Units must have working hour meters for the duration of contract; any unit that has a malfunctioning hour meter must be reported to the District immediately. Machine must be fixed within seven (7) days. If after seven (7) days, the hour meter is not repaired; it will result in a halt of payment for services until hour meter is repaired.
- 2.5 All equipment must be equipped with manufacturer's safety guards and shields, which are in operable condition. In addition to machine safety, all personnel must abide by any OSHA mandated personal safety requirements.
- 2.6 Excavation assignments will be made by a representative of the District as to locations to be excavated, acceptability of the work, and scheduling. A District representative will give the contractor general instructions regarding scope of work to be done. Contractor is expected to provide supervision and instructions to its employees for all work assigned by District. All excavation must be done during the working hours of the District, which are from 7 a.m. till 3:30 p.m., Monday through Friday, exclusive of holidays. The District reserves the right to amend the hours of the excavation at any time with notification to the Contractor. Other operating times must be approved in advance by the District. There is no guarantee as to the number of hours of work available per week, and at times the contractor could face temporary shutdowns for undesignated amounts of time due to inclement weather or budget restraints. There will be no 4–10-hour workdays allowed, unless approved by District Management. Any overtime required will be billed at regular equipment bid rate, plus overtime for operator, with proper documentation. No excavation will be permitted during inclement weather or when right-of-ways are wet and subject to rutting.
- 2.7 The successful bidder will be required to have the proper equipment to move his machines

at any given notice by the District. The District is not required to give advance notification of any equipment moves.

- 2.8 The successful bidder will not have the right to subcontract any portion of this excavation contract, except for haul-truck contracting, necessary for the transportation of equipment from one job site to another. Equipment moves will be at the Contractor's expense.
- 2.9 The District will not be responsible for any damage to Contractor's equipment that may occur while excavating during the time of this contract due to bank failures, eroded downspouts, pipe crossings, bridge crossings, or any other type of structure or construction that the Contractor's equipment may have to travel upon or come in contact with.
- 2.10 No Warranties:
- The District makes no representations or warranties of any nature, express or implied, including but not limited to, the suitability of the District's property for the work to be performed under this Agreement, and the District hereby Expressly disclaims any such representations or warranties to the fullest extent permitted. Contractor is responsible for inspecting the work site prior to beginning work under this agreement and is required to take all action necessary to perform the work under this agreement in a safe and lawful manner.
- 2.11 Contractor will be responsible for ensuring that all gates are closed immediately after entering or exiting. The Contractor will be held responsible for all keys to gates issued to the Contractor. Contractor will be held responsible for any livestock animals that escape from gate or fence openings that are left down or open or damaged. Contractor will be required at his expense to repair any gates, fencing, or other property damaged by his equipment and said repairs will be performed within the same week as damage occurred.
- 2.12 The Contractor will be required to fill out time sheets on a daily basis as to work performed each day. Said work sheets will be furnished by the District and turned in each Monday before 3:30 p.m. to the District's office or to a designated representative of the District. Said hourly reports will be based on the hour meters of each unit, and the hourly time reported must correspond with the hour meters on each unit. "Down time" is to be reported immediately to District Management and listed as "no pay" time on Contractor's Daily Time Sheet; and all fueling, repair, and maintenance activities are to be excluded from billing time. **All units shall have a District issued equipment number which MUST reflect on all time sheets as identification of equipment used.**
- 2.13 The time sheets will have to be approved and signed by a District representative stating that the site excavated and designated on the time sheet has been inspected and meets all excavation requirements of the District.
- 2.14 The Contractor must furnish operators for the units who are capable of operating said equipment in a safe and efficient manner and be able to follow instructions of the District's representatives. The Contractor must assume responsibility for payment of property and personal injury damages and repair any created damages to the District's or any property owned by adjacent landowners or any other person or entity while performing excavation assignments for the District. Any damages must be reported immediately to the District in written form, and repairs must be completed within 5 working days from the day of the damage occurrence.
- 2.15 The Contractor must comply with District policies, all laws, ordinances, rules and regulations of the federal, state and local governments in which the work is carried out, especially in regard to safety and transportation of equipment.
- 2.16 Before commencing work under this agreement, the Contractor shall obtain necessary insurance policies to meet all requirements as specified. The Contractor shall furnish to the District certificates as proof of such insurance coverage, on accord insurance form, which designate the District as additional named insured and a waiver of subrogation; and these certificates must be updated yearly and mailed to the administrative assistant at the District's mailing address.
- 2.17 Excavation contract will be for a period of sixty (60) months from the date said contract is

executed by all parties. The District reserves the right to terminate in accordance to Bid Specifications.

- 2.18 Award of contract will be based upon compliance with the bids, hourly rates of required equipment specified, availability of equipment, quality of equipment and experience of the contractor and operators. In the event that the contractor receiving the awarded contract is unable to fulfill the requests of the District or requirements of these specifications, this bid will be cancelled and awarded to the second lowest and best bid meeting District requirements.
- 2.19 Excavating intervals and assignments will be at the discretion of representatives of the District. Payment will be made based upon the hourly bid rate.
